## Client Testimonials

To Whom It May Concern:

My name is Steven Grammer Finance Director with Discount Retail Store Services, LLC located in Las Vegas, NV. We have been working with Seed Capital since November of 2008. Seed Capital has helped over 200 of my client's achieve their dream by finding them the needed funds to open their business. If you are a small business or starting a new business Seed Capital has the ability and knowledge to obtain the lines of credit needed to begin the dream of owning a business. Seed makes a strong stance by offering all clients a guarantee, if they are unable to obtain a minimum of \$50,000 they will refund your commitment and you pay nothing which was a big factor with our Company. The feedback I receive from my Customer Relationship Manager helps me stay on top of all my projects so I know at a glance where each client is at and how much further we need to go. The service and communication received by Seed Capital is recommended to anyone interested in going through their program.

*"Your Process For Success"*

Dear James,

I wanted to take a moment to write and tell you and your team thank you for the absolutely amazing service and, of course, the excellent results we have seen this past year. Seed Capital is a large reason we can proclaim that 2010 is our most profitable year in the twenty two year history of Paint Bull and Colortec, Inc. As the Special Finance Director, I also wanted to send along accolades for your team and my strong recommendation to any franchisor or business opportunity who is looking to provide a finance solution to their customers.

For anyone who is looking for a quality and efficient means for acquiring financing for a business, I would strongly recommend the Seed Capital products and services. Seed Capital has become a great source for us for financing and continue to achieve very high quality results for us.

Sincerely,  
Steve Mellish  
Special Finance Director

We've had several large sales pass through our doors thanks to David at Seed Capital. They are professional, keep us updated on applications and are very clear about their lending process to my customers. In this economy, it has been helping our sales stay active while providing opportunities for our client base.

To Whom it May Concern:

We have sent a number of franchisees to Seed Capital over the past year. As everybody knows, times are tough, and even those that would have easily qualified for financing in the past have been having challenges going through conventional financing and dealing with the traditional banking system. Seed Capital has been the exception. The feedback that we receive from our owners that have used them has been extremely positive. They are attentive, knowledgeable, and most importantly, they provide results. Very often I receive calls with updates on all of my clients, which simply does not happen with other lenders. I would recommend Seed Capital to anybody that is looking for a quick, economical and viable way to raise capital.

Sincerely,  
Adam Blake  
VP of Franchise Development, The Filta Group Inc.

I have been working with Seed Capital for some time now and I like the personal attention they give me and my prospects. The Seed Capital staff has been great about staying in touch with all parties, so we always know where things stand. One of my prospects was just approved for more than what they need to finance the business and was elated to find out that they could now fulfill their dream of business ownership. I will continue to utilize all the services that Seed Capital has to offer my prospects and highly recommend them as good business partners.

Finding funds at all, let alone a sufficient amount for a start up business is practically impossible right now. That is until we found Seed Capital. Seed Capital has worked with our clients to find them the necessary funds to not only purchase their own business, but have working capital to ensure their business can grow and succeed.

James Saia and his staff at Seed Capital have been nothing short of remarkable for our company. They work one on one with each of our Operators to find them the necessary funds needed to start their own business. For our customers to have the ability to receive a minimum of \$50,000 in available credit with low interest rates and affordable payments, it makes the purchase of their own business easier and less stress. On top of that, to have Seed Capitals knowledgeable and friendly staff to consult with for a year makes them an extremely easy choice to recommend to anyone.

Thank You,

Amanda McLean  
Finance Manager

To whom it may concern,

My name is Russell and I have been working with Seed Capital to establish the capital that I needed to get a new franchise started in the Greater Chicago market. The process has been very easy due to the support I have received from their professional staff. Within a very short period I had the capital to make my new business venture a reality. My long time bank of more than twenty years would not even consider helping me.

Thank You Seed Capital, my future appreciates it.

Russ Bloom  
CEO, Fast Wrap USA of Greater Chicago

Starting a business during the current economic situation hasn't been easy. We applied over and over again to different banks to try and get a start up loan, but at the end of it all we still had no money. I decided to give Seed Capital a call after finding them on the internet one day just to see what it was about. I can honestly say that if I hadn't of contacted them my business still would be in the same place it was 2 months ago: part time and unprofitable. After a fairly short process, in which a personalized analyst accesses your financial situation and eligibility, we were on our way to gaining much needed credit. One thing I liked about this process is that the people at Seed Capital really wanted to make sure that they could help us succeed before they tried to get us to sign up. Once this was done, with in two weeks we began receiving our credit lines.

The other great thing is that the extremely knowledgeable staff made sure we understood how to use our new lines and work the system to our advantage. I will mention that you have to be willing to be faithful and follow the instructions of your analyst for it to work to its highest potential, but I can confidently say that our company is up and off the ground and moving forward strong because of the chance that Seed Capital has afforded us.

To whom it may concern:

This economic environment has been challenging on small and emerging businesses. As a CEO of a 15 unit franchise company, we have been crippled and effectively frozen from a growth perspective based on our recent inability to use or attain any credit or funding from Banking partners that we previously worked with.

We were recently introduced to Seed Capital. Seed Capital quickly worked with my company and prospective franchise partners to evaluate our credit; help us understand our credit and most importantly help us attain very essential working lines of credit for our business. Seed Capital's understanding of the current credit environment is impressive and reassuring. We are fortunate to have worked with them and look forward to a mutually beneficial and long term relationship. Their team is responsive and patient which we found very helpful through the process.

## **More Personal References:**

I have a small family-run business that had need for capital. Seed Capital has lived up to their word. Seed Capital has delivered on its promise to make funds available to my business in a relatively short period of time. In approximately two months, they exceeded my initial request for capital. Seed Capital consists of a professional group of consultants that are proficient and experts in the field of accessing capital. I relied on their talents and expertise and they delivered on their promise of locating funds in a timely manner. Thanks to Seed Capital, my business is flourishing without the financial constraints that plague many businesses (small and large).

In summary, Seed Capital has underpromised and overdelivered. They are a pleasure to do business with. I look forward to the continued working relationship with Seed Capital.

After not being able to get into a franchise due to a competitive bid, I did not lose hope in starting or expanding my business. When I moved to Florida with the Real Estate prices low as they were, I took advantage of Seed Capital. What banks could not do I could count on Seed Capital to get the business going and to expand. If it were not for Seed Capital we would be wondering how do we get financing.

The customer service and the partnership with Seed Capital has been invaluable. Anyone wanting to start a business and have no options, please trust in Seed Capital as they know what they are doing.

Thank you,

My name is Gretta and I have been working with Seed Capital to establish the necessary capital that I needed to get a new franchise started in the South Carolina market. The process has been very easy due to the support I have received from Seed Capital. Within a very short period after having the support of Seed Capital, I had the capital to make my new business venture a reality. My long time bank of more than fifteen years would not even consider helping me.

Thank You Seed Capital, for the wonderful work that you all have done and continue to do for me.

In these economic times, it is difficult to know where to turn for credit guidance and help. There are any number of people who claim to be "specialists" in securing credit or funding. I am fortunate because I found Seed Capital.

Not only did they secure over \$100K in credit card lines for my new company, they have continued to monitor and work with me for the past 5 - 6 months to make sure that I am staying on track to build the right credit portfolio to include trade accounts.

I fully expect the relationship will continue on the same path and I will have corporate credit worthy of a company that had been in existence for many years more than mine. It is all about knowing the credit procurement business, and they do.

I would like to say Seed Capital has been very helpful and professional in all aspects of my dealing with them I am now at the point where I am about to open what will hopefully be the first of many more stores all due to their access to funds which I know I could not have located without their help. I would also like to add I was ignored by a bank who said they wanted to help me and they held everything up for a couple of months when I called Seed I was helped right away. I hope our relationship continues for a long time.

Seed Capital was able to over deliver on what I needed to give my business a competitive edge in the marketplace. Their expert advice and trust is what I needed especially in today's economy. Any time I have a question or need help with something they are always there as an advocate by email or phone. I give them 2 thumbs up!!!
